WORLDSLEEPCONGRESS.COM | CANADA
Dear Colleagues,

As President of World Sleep Society, I am delighted to invite you to attend World Sleep 2019 from September 20-25, 2019 in Vancouver, Canada. As a busy professional and researcher, I understand calendars and budgets fill out sooner than expected so may I suggest you add this meeting to your 2019 calendar now.

Why should you attend World Sleep 2019? For the opportunity to network with top sleep experts throughout the world, share clinical and/or research ideas, and disseminate your own patient or study findings on a worldwide stage.

If you are a trainee, new clinician, or young investigator, World Sleep 2019 will provide opportunities for you to learn from and be mentored by experienced sleep experts – the best in the field! Mid- or late-career clinician/researchers will benefit from the latest breakthroughs worldwide that could be implemented in your practice or research.

We are anticipating a global attendance around 2,600-3,000. At our 2017 congress, 76 countries were represented. Our full scientific program is expected to offer more than 250 hours of scientific content.

I invite you to help us bring fresh ideas and perspectives to the sleep field. I look forward to seeing you in beautiful Vancouver!

Sincerely,

Charles M. Morin, PhD
President, World Sleep Society
Now welcoming contributions to a high-level scientific program by proposing a symposium or abstract for World Sleep 2019. We encourage submissions on all aspects of sleep medicine and research.

**SYMPOSIUM**

**Accepted September 1, 2018 – December 1, 2018**

Symposia provide you an opportunity to present concepts and new data to an interested and engaged, worldwide audience.

Symposia proposals will be ranked according to scientific and clinical significance, relevance of the topic, timeliness of the research, and breadth of the topic’s appeal. Higher weight will be given to symposia with multi-national participation. Symposium submissions MUST:

- Be focused on a single topic that is relevant and scientifically excellent
- Be complete (title, summary, learning objectives, and target audience)
- Include all speaker information for each speaker (title of contribution, first and last name, country, and email address)
- Fit into the standard time allocated per symposium of 90 minutes
- Be received by the World Sleep Society by December 1, 2018 via email

Submission details on [worldsleepcongress.com/scientific-content/symposia](http://worldsleepcongress.com/scientific-content/symposia).

**ABSTRACTS**

**Varying submission dates between December 1-August 1, 2019**

Present your work to an international audience. Submit research in any area of sleep medicine for inclusion as an oral abstract, poster abstract or young investigator presentation. All accepted abstracts are published in a *Sleep Medicine* journal supplement. Presenting authors must be registered for the congress by August 15, 2019. Submission details on [worldsleepcongress.com/abstracts](http://worldsleepcongress.com/abstracts).

**ORAL ABSTRACTS**

Authors will be given 13 minutes to summarize their peer-reviewed research in a specific topic area, and presentations will be moderated by experts in the field. A brief question and answer time will conclude the session. Authors that are not selected to present an oral abstract, will be given the opportunity to present a poster abstract.

**POSTER PRESENTATION**

Authors will present their poster during one of six 30-minute poster abstract sessions. Posters can be presented at almost any stage of research and provide an excellent opportunity for authors to discuss their methods and findings with other professionals.

**YOUNG INVESTIGATOR PRESENTATION**

Two tiers of Young Investigator Awards will be offered to qualifying individuals at World Sleep 2019. The first-tier award will provide the opportunity for up to 18 individuals to present their abstract during a special Young Investigator oral abstract session. The second-tier awards will be presented for the top ranked young investigator poster abstracts each day. The application deadline is June 15, 2019.

**SLEEP DISORDERS PRIMARY CARE EDUCATION COURSE**
This one-day course is predominately tailored to general practitioners who see patients with sleep disorders in their clinic. The course will cover a broad range of sleep related topics in both adult and pediatric patients, focusing on the most common disorders seen by practitioners. In general, the format will include a brief 15-minute lecture by local and international experts in the field, followed by 11 minutes of questions from the audience. The course will be limited to 200 attendees. The registration fee to attend is $165 USD.

**TECHNOLOGIST TRACK**
The technologist track is a four-day program that will provide educational and networking opportunities for technologists and sleep professionals. A full-day course will be delivered on Sunday, September 22, 2019. Three 90-minute workshops will be presented each day of the congress, Monday through Wednesday, September 23-25, 2019. No additional registration fees apply.

**TRAINEE RESEARCH DAY**
This daylong event, sponsored by Canadian Sleep Society, Institute of Circulatory and Respiratory Health (ICRH) and the Canadian Sleep and Circadian Rhythms Network, has been designed by trainees for trainees in sleep research. The program will be relevant to a wide range of trainees. Participation is encouraged from trainees at all levels, from graduate students to fellows, working in basic and clinical research fields. The format of the program will include a mixture of data presentations by trainees and senior investigators, in addition to professional development sessions where attendees will get advice from experts on improving scientific communication skills. The trainee day will conclude with a social event and data blitz aimed at getting attendees to interact and have fun. Sunday, September 22, 2019 from 8:50 AM to 5:30 PM.

**SRS FRONTIERS SCIENTIFIC MEETING**
The Sleep Research Society (SRS) Frontiers Scientific Meeting is a 1-day workshop to be held on Tuesday, September 24, 2019. The program will provide a comprehensive and state-of-the-art update of the basic mechanisms and functions underlying sleep in both health and disease. Presentations include invited lectures, symposia and abstract presentations supported by the SRS.

**IRLSSG ANNUAL MEETING AND COURSE ON RESTLESS LEGS SYNDROME**
The International Restless Legs Syndrome Study Group (IRLSSG) will offer a full-day course on Sunday, September 22, 2019. Attendance is open to any sleep professional who is interested in RLS. The Canadian Sleep Society is a national organization committed to improving sleep for all Canadians through: support for research, promotion of high quality clinical care, education of professionals and the public, and advocacy for sleep and sleep disorders medicine. Learn more at www.css-scs.ca.

The fundamental mission of the World Sleep Society is to advance sleep health worldwide. World Sleep Society will fulfill this mission by promoting and encouraging education, research and patient care throughout the World, particularly in those parts of the world where the practice of sleep medicine is less developed. World Sleep Society will act as a bridge between different sleep societies and cultures, supporting and encouraging worldwide exchange of clinical information and scientific studies related to sleep medicine. World Sleep Society will seek to encourage development and exchange of information for world-wide and regional standards of practice for sleep medicine.
